

RENO FRANK AQUILINA

LUXURY CONSTRUCTION — COMPLETE PROJECT MANAGEMENT

Your project, managed from first sketch to final handover.

One point of contact coordinates architects, engineers, contractors and suppliers, so your high-end project moves forward with control, transparency and peace of mind.

Experience

More than twenty years of construction project management, built on a craft passed down through generations.

Control

Contractors, schedules, budgets, procurement, quality and delivery, all coordinated.

Confidence

A structured approach that reduces risk and delivers to the agreed specification.

Complete management of your project, from feasibility to final handover.

Feasibility & advice

Analysis of the project, its constraints and objectives before any commitment.

Budget & cost control

Building and tracking the budget, professional quotation analysis.

Contractor tendering

Preparing tenders, comparing offers, making recommendations.

Trade coordination

A schedule that manages dependencies between architects, engineers and contractors.

Procurement

Tracking orders, suppliers and delivery lead times.

Quality control & handover

Execution follow-up, compliance checks and support through to handover.

A SIX-PHASE METHOD

Six clear phases to keep control of cost, schedule and quality at every step.

01

Analysis & feasibility

Understand the project, its constraints and objectives.

02

Design & approvals

Coordinate design and the approvals process.

03

Budget & tendering

Set the budget and tender the works.

04

Planning

Sequence the trades and their dependencies.

05

Execution & control

Coordinate the site and control quality.

06

Handover & delivery

Accept the works and hand over the keys.

One standard, whatever the sector.

Luxury hotels

Restaurants

Industry
